CARR VS. PINNEY.

Pinney Still Constructively in Jail—79 More Complaints Forthcoming—Extreme Penalties.

George M. Pinney is still constructively a prisoner in the San Francisco Jail, though he is allowed the privilege of sauntering down to Halleck and Leidesdorff streets for his regular cocktails as often as he feels inclined to imbibe. The charge against him of forging a naval pay certificate in favor of C. B. Higgins was called up for hearing in the San Francisco Police Court yesterday, when his counsel, Colonel Harry I. Thornton, asked the Court to first examine Pinney on the charge of embezzlement in the Ida Elmore Mining Company case, as defendant was on bail in the forgery case but in custody on the charge of embezzlement. Prosecuting Attorney Flood said the Court had the right to elect which charge should be heard first, and thought that after the examination of the second charge of forgery defendant would waive preliminary trial on the

SEVENTY-NINE OTHER CHARGES

Which are preferred against him Colonel Thornton said that every few days he heard it stated by the Prosecuting Attorney of the Court that additional charges are to be made again Mr. Pinney, and in order to give the prosecution an opportunity to prepare these charges and present them, and to prepare for the Ida Ellmore case, he would consent to a postponement for a day with the understanding that the embezzlement case should be taken up first. After further discussion by counsel, Judge Louderback postponed the further hearing until to-morrow afternoon at 2 o'clock. After adjournment of the Court special counsel for the prosecution submitted to the Judge a complaint charging Pinney and J. E. de la Montagnie with

CONSPIRACY TO DEFRAUD

Certain persons named in the complaint out of $640,000, and applied for a warrant for the arrest of Pinney on that charge. The Judge declined to issue his warrant on the ground that the complaint contained too many counts, and suggested that each of these counts should be made the subject of a separate complaint. The attorney withdrew, and other complaints will be substituted. The Prosecuting Attorney stated that to-day twenty-five complaints for forgery will be filed against Pinney, and that in the course of a day or two about twenty-seven complaints, charging Pinney with having obtained money by means of false pretences, will be filed against him.

EXTREME PENALTIES.

In view of the multitude of charges being made against the defendant, it may be of interest to announce the extreme penalty provided by law for the punishment of the crimes charged. Forgery is punishable by imprisonment at San Quentin for a term not to exceed fourteen years; embezzlement, when the property embezzled exceeds $50, is punishable by imprisonment in the Penitentiary for not more than fourteen years; obtaining money by false pretences may be punished by imprisonment in the County Jail for one year, or by the payment of a fine not to exceed $1,000.

NEW SCHOOL BUILDING.

On motion of Mr. Swett, the Board went into Committee of the Whole, Mr. Hobart in the Chair, to continue the reading of the specifications and the examination of the detailed drawings for the proposed new Fifth-street School building. At 10:15 P. M. the Committee arose and reported, recommending the adoption of the detailed plans and specifications considered in Committee, and that the Committee on School Houses and Sites be authorized to make the changes that had been suggested and advertise for bids for the erection of the building. The report and recommendations were unanimously adopted.

Report of Professor J. M. ROBERTSON.

GENTLEMEN:—In presenting a synopsis on the appearance of your land as to the existence of its carboniferous deposits and the extent of the COAL fields, and what outlays may be necessary, I now give you according to agreement a general report thereon.

I find it decidedly of a carboniferous nature. There is nothing of the inorganic structure as you ascend the mountain to warrant the existence of a carboniferous epoch, until you reach the out-croppings of shale on your own land where the first tunnel was commenced, and had this tunnel been constructed in a proper manner, your coal measures would have been developed without the necessity of opening a tunnel on the western end of the land, where the present workings are being carried on.

On examining the carboniferous fields from east to west, I find tracings of coal the whole length of the ground, some on the surface and others in the gulches, formed by washings and denudation; here the strata are well defined. The course or trend of the measures are seemingly east and west, with a dip to the north from the angle of 40° to 60°.

These calciferous sandstones and coal measures promise to be in large quantities, to what extent at present it is impossible to say, until a thorough survey and superficial opening has been made.

Then we may more certainly conclude what extent of ground these measures cover and the number of stratus. Nevertheless the ground has every possible showing that *the coal basins are extensive.* How far they extend in depth it would be impossible to assert positively.

Their course appears to lie from west to east and they alternate with beds of silicious sandstone, calcareous sandstone, carboniferous shale, magnesean limestone, some ironstone and clayey marls. Associated with these are fossils mixed with bituminous shales, such as the family of Acephalous (oysters), and ammonites, the extinct order of Mollusca, these belonging to the carboniferous period. These fossils and superincumbent strata would warrant me in assuming that an immense estuary once existed where the coal measures now crop out, and perhaps extended beyond MOUNT DIABLO.

The extent of this coal formation would seem to conform with an extended estuary which had been washed by the ocean, as these fossils which are found in the shales and sandstone are litoral species belonging to the coast of California.

With these remarks I subscribe respectfully,
J. M. ROBERTSON,
Chemist and Geologist.

S. N. PUTMAN Esq., President Oakland Coal Mining Company.

DEAR SIR:—Referring to the above report of Professor Robertson, we can corroborate all he says and more, for *we expended over ten thousand dollars* in the 720 feet tunnel, which you are about to complete, and nothing but our unexpected financial embarrassment prevented us from fully developing the coal beds which we know exist in your land. We have taken out coal of a good quality—and burned it while the Mine was in our possession.

Yours truly,
T. H. HATCH,
R. M. BRANGON.

A Sense of Weariness

Is often felt by persons who cannot locate any particular disease. If they work, it becomes labor; if they walk, they soon tire; mental efforts become a burden, and even joys are dimmed by the shadow of this weakness which is cast over their lives. Recourse is had sometimes to stimulants of a dangerous character. The advice of physicians to refrain from active labor produces no happy results. Why? The system is debilitated and needs to be built up properly. PERUVIAN SYRUP will do this very thing. Like the electric current, it permeates the entire system, and harmonizing with the corporeal functions, it raises up the enfeebled and brings the color to the cheek again, and hope to the despondent. It does its work promptly and well. Sold by all druggists.

The Entente Cordiale.

The enthusiastic greetings accorded to General Grant in England are most gratifying evidences of a deep and sincere friendship on the part of the Government as well as of the people of the "mother country" toward the United States. The friendship of the people has always been ours, and we now have an unmistakable expression of the earnest good will of the nobility and even of royalty itself toward the Yankee Nation. No more glowing tributes have been paid by our own press to the distinguished soldier than have been awarded to him by the English journals. The Daily News calls him "one of the greatest soldiers living," and declares that "he was absolute victor in one of the greatest wars known to history." All the other leading journals have equally emphatic articles. The civil authorities vie with the people to do honor to their visitor with enthusiastic cordiality. The streets of the great city were gaily decorated and thronged by holiday crowds, and in proposing a toast to General and ex-President Grant, the Mayor said "there was no necessity for renewing the assurance of the cordiality of welcome extended to their guest, or to depict how strong was the desire of England to draw still more closely the bonds of friendship between the two great commercial nations of the world; and especially on the occasion to honor the hero of a hundred battles, whose courage and skill challenged their admiration." While the gallant soldier is being thus pleasantly welcomed, and the statesman so bountifully showered with courtesies, there is doubtless mingled in the general current of good feeling a desire to reciprocate the kind attentions tendered by the American people to the Prince of Wales during his visit to this country some years ago. Such acknowledgments of friendly consideration are promotive of good will between the people of both countries and on this account are gratifying to all persons who desire the harmonious relations now existing to constantly grow stronger far into the future.

Butler and the Interviewer.

The spoon story about Butler has passed into history as a baseless, malignant fabrication, and there are none now so cheek-hardened as to publicly repeat the malicious libel on his probity. But the doughty General is horribly blasphemous in his choleric moods. A New York Herald reporter called on him the other evening to interview him on the subject of the new party that report says has been organized. Butler completely covered the impudent intruder with an avalanche of blasphemous maledictions and drove him from his presence with a torrent of execrations. But the reporter drew from the wrathful statesman of the home of the Puritan fathers that there was no new party.

The people of Alameda complain because the Board of Supervisors do not take entire charge of the drawbridge. The fact is, the bridge was built with the understanding that the citizens of Alameda should pay their proportion of the cost and the keeper's salary. They proposed this, and they want the bridge but do not want to pay anything for it. The Supervisors are therefore reasonably loth to saddle the affair upon the county. They should obtain legal advice before they act in the matter.

It is generally believed that President Hayes is in favor of the remonetization of silver and that he will recommend to Congress that the silver dollar may be made a legal tender on equal terms with gold for some limited amount. Secretary Sherman is in some doubt as to the policy to be pursued to effect the desired result, but seems inclined to favor making the silver dollar a legal tender for a limited amount, say fifty dollars.

NOTES AND EXCERPTS.

The ex Empress Eugenie was treated at Malta as if she were still an Empress; and she will be likely to remember the circumstance when Louis gets his rights.

The Rev. Dr. Morgan Dix recently told a story of a friend of his whom he described, in a deprecating tone, as "a clergyman, but in all other respects a most worthy man."

Ex-Gov. Hendricks' home in Indianapolis is described as a neat and unpretentious frame building, with a large and beautiful yard in front, filled with shrubbery and flowers.

The Boston street-car companies have banished dogs from their cars, and an exasperated cur a day or two ago jumped suddenly upon a car and bit the conductor in the leg.

A New Hampshire woman, widowed by a railroad accident, has sued the company for the value of the suit of clothes the good man wore, and for $6,000 for the damage done to him.

Our Minister to St. Petersburg says that "Russia will carry everything before her," if Turkey makes no alliances. So far, her military preparations indicate that, as in tunneling, she will have to drill her way.

Over two hundred pages of delinquent tax notices were published in a Chicago newspaper last week. The property effected would seem to comprise almost every lot in the city. The publication will cost the taxpayers $50,000.

Two men went bathing in a hot spring near Austin, Texas, on the 29th ult. and one David J. Richards, well known as "Dave Red," was drowned. The body, when it was found five hours afterward was almost parboiled, the skin peeling off in large flakes.

There is to be a woman's club-house in Philadelphia. The building has been chosen and furnished. It is in Girard street. Husbands are to be elected as honorary members, but admitted only to the outer vestibule to escort their wives home at night.

Gov. Hampton, of South Carolina, is to marry the widow of the late Gov. Pickens, of the same State. She was the second Mrs. Pickens, and much younger than her husband. In St. Petersburg, where Gov. Pickens was sent as Minister, she was admired for her beauty.

The "Sandjak Sherif," or "Standard of the Prophet" which the Turks threaten to raise, is believed by the Moslem to be a piece of a curtain which hung before the apartments of the Prophet's favorite wife, Ayesha. The Moslems who would rally under its folds, number, it is said, 40,000,000 souls.

President Hayes has determined, it is said, that he will accept no private hospitalities while he holds his present office. Secretary Evarts, for his part, has decided to plead no more cases in court while he continues to act as Secretary of State, the duties of which office are sufficiently exacting to employ all his time.

Grace Greenwood is cultivating a prodigy for early appearance on the dramatic stage. Her name is Boyle, and she is admired by all the women correspondents and a very select circle of connoisseurs in Washington. One lady says that no actress except Clara Morris and Rachel, has produced the same thrilling impression upon her as Miss Boyle.

Mr. Appleton Park Lyon, of New York, started out in life with the modest ambition of learning everything, and now thinks that he has in a measure accomplished his purpose. He keeps an academy on Fifth avenue, and instructs some sixteen or seventeen pupils, employing exclusively the Socratic method. He is paid $6 or $7 for each hour's talk by each pupil, and is engaged some sixteen or seventeen hours a day. All his pupils are wealthy, and they are willing to pay even more than he asks. He has already more money than he knows what to do with, and has large sums lying idle in bank.

The New York "Evangelist," referring to the recent payment of the heavy debt resting on the Rev. Dr. Hall's church, corner of Fifth avenue and Fifty-fifth street, remarks as follows: "The building had not gone far before the hard times came on, when many enterprises were brought to a dead standstill; and the congregation might well have been excused if it had recoiled before the heavy undertaking. We think it not at all impossible that it would have taken counsel of prudence, and thought discretion the better part of valor, but for one or two energetic men, who are not apt to put their hands to the plough and look back. One of these belongs to the noble army of editors. We refer to Mr. Robert Bonner, of the New York Ledger, who gave 100,000 to the work, and by his courage and resolution did more than any other man to push it through. We make this statement without his knowledge, as the facts have come to us from other sources, and from the acknowledgements made in private, and in the most cordial and grateful terms, by Dr. Hall himself."

The Tribune's New Haven correspondent in announcing the nomination of Dr. Dale to the Lyman Beecher lectureship for the coming year referred to him as a worthy successor of "Drs. Storrs, Hall, Taylor, and Brooks." The substitution of Dr. Storrs's name for Mr. Beecher's was an inadvertence which could not have deceived many readers. This lectureship was established by a member of Plymouth Church in honor of Lyman Beecher, and Lyman Beecher's son, the founder's pastor, delivered the opening courses of lectures, full reports of which appeared in the Tribune during two seasons. Dr. Storrs has not been one of the preachers on this foundation. A correspondent from Andover Theological Seminary seems to be half afraid that Mr. Beecher in this instance has been treated with intentional unfairness or worse. Not so; 'twas heterophemy, and not malice aforethought. This Andover gentleman's ungenerous suspicions prove that while the Congregational communion has been delivered from the unclean spirit of the Brooklyn scandal, soreness and sensitiveness remain in the churches.

While the Russian troops were filing across the Pruth into Roumania and fixing their eyes upon the Turkish possessions across the Danube, the German Emperor was traversing the two provinces which were wrested from France during the last European war. At Strasburg he received as hearty a greeting as was ever paid to a French Emperor. Every prominent street was decorated with Venetian masts, flags, banners, and evergreens; the platform at the railway station was a marvel of ornamentation, and the reception room prepared for the Emperor and his staff was like a fairy grotto. A salute of 30 guns announced his arrival, and in an instant all the church bells were ringing, and the bands were playing the Kaiser's hymn. As the Imperial party drove slowly through the streets the soldiers and the bulk of the population cheered lustily. On the following morning (May 2) the Emperor and the Crown Prince reviewed the Baden, Saxon, Wurtemburg and Brunswick regiments—about 50,000 men. The French residents were too sensible to make any manifestations of impotent dislike, and it was evident that the Emperor's aim was to conciliate and not to irritate them.

A COSTLY RUNAWAY.

Some Children Cause a Team to Run Away by Running a Toy Wagon Against Them.

About 12:20 this afternoon Dr. H. St. George Hopkins drove his spirited team and buggy up in front of the Nicholl Block and stepped up stairs to his office, leaving Mr. Turner, agent of the "Argonaut," to watch the team. Some children were running a little rattle-trap toy wagon upon the stone sidewalk at the time and Dr. Hopkins requested them to keep away from the horses, but he had scarcely reached the head of the stairs when one of them ran the wagon off the sidewalk, striking the legs of the animals. The frightened team gave a bound and started down Ninth street on a keen run. Mr. Turner instantly sprang for the bridles and succeeded in getting hold of them, but after being hurled along the street for some distance and painfully injured he loosened his grasp and left them free. As the team, under full headway, turned west of the brick piled up for Kohler, Chase & Co's building, the buggy collided with a pile of lumber and was badly wrecked. The shock brought the horses to a standstill, and they were caught by bystanders before they could get another start. One of the horses was also considerably injured, and the total damage to team and buggy is estimated at between $500 and $600.

The General Principles of Baunscheidtism.

Since the arrest of Dr. RENKEN for the practice of the genuine Baunscheidt healing method, there has been so much said about it in the papers, and so many people have thereby been led to make inquiries regarding this new mode of reaching disease, that I feel it my duty to state, for the general benefit, some of the principles of the action of *genuine* BAUNSCHEIDT, LIFE-RESTORER OLEUM in removing the various kinds of disease from the remotest parts of the human system.

THE OLEUM.

1st.—The Oleum is directly introduced into the blood upon the principle of innoculation, where, by a delicate chemical action, it soon *dissolves* and *removes* disease.

2d.—The life-principle contained within the oleum is *opposite* in character and nature to that of disease, and when these two (the Oleum and disease) come in contact with each other the opposite *dynamic power* of the Oleum soon overcomes that of disease; hence disease has to depart the system, and thus the combined action of the life-principles of the Oleum and the human body, together, soon master the most stubborn of *old chronic cases*, where the medicated drug-swallowing methods of Allopathy have ignominiously failed.

THE LEBENSWECKER.

3d.—The Lebenswecker (or life-restorer) is the instrument used to puncture the skin and thus allow the Oleum to immediately enter the blood—also, the punctures made by the Lebenswecker becomes a local point through which disease is soon driven out. The act of circulation carries the Oleum to the remotest parts, and is thus instantly brought in contact with the *life-principle* of disease, which is soon overcome by the *superior* chemical dynamic principle of life contained within the Oleum. In simple language, the Oleum reaches and kills disease; whose dead carcass is driven out of the system through passage-points made by the Lebenswecker, and also through the *natural channels* of the body.

4th.—By this METHOD OF CURE the blood is radically purified of all poisonous virus, of all disease, and the machinery of the delicate organs of mind and body is allowed to perform its functions in a healthy, normal manner. The blood then carries with itself and deposits where required, all the essential elements of material and life required to *build up* and keep in repair every organ of mind and body. The process of digestion, respiration and secretion then operates like clock-work, and the functions work and keep time to, and fulfil the requirements of a healthy being. Our aches and pains then cease; we love God and man the more, and society is freed of the influence (disease) that *causes* crime; we walk forth, a happy, healthy man!

By the Baunscheidt mode of treatment every man and woman of ordinary intelligence may soon become his or her own physician, and thus avoid being poisoned by Allopathic quacks, and all such medical vampires.

The principles of Baunscheidtism are easily understood. No vague theories nor speculative mysteries surround it; no recourse is made to a dead language to clothe its terms, and beg for it a spurious respectability; no pedantic, quack display of medical technology.

Baunscheidt Lebenswecker Oleum, is a God-given remedy, absolute and specific, simple and true, for all laymen to acquire and possess, and thus be free from the greatest of curses, a mercenary, money-making, drug-poisoning M. D.

OAKLAND'S GROWTH.

The Present Population Placed by Bishop's Directory at Over 45,000.

Bishop's Oakland Directory for 1877-8 has just been issued. It is a handsome volume of 640 pages, containing an interesting review of the city and her leading industries and much statistical matter. Speaking of the population of the city the publisher says thirty-five thousand was accepted as a correct estimate of the population of Oakland in June, 1876. The number of children in the city at that time was 8,745, or about twenty-five per cent. of the total population. Thus, in 1870, the School census gave 2,592 children and the Federal census 10,000 inhabitants to the city. The gain in the number of children for the last four years has been twenty per cent. annually; that ratio of gain from June, 1876 to June, 1877, will give a return of 10,497 children, indicating a population of 41,976. But it is a patent fact, that the enumeration of children, of late years, is often taken in a careless manner, resulting in the omission of a considerable number of names. The population of Oakland is undoubtedly larger than the figures indicated by the school census, for two reasons: First, all the children are not returned; second, there are, at least, fifteen hundred men residing in the city, engaged upon the hundreds of new buildings, who have no families here, and consequently no children to be returned. A more reliable basis than the School census, upon which to estimate the population, is the present volume. This work being published annually, and containing the names of all adult males and heads of families, affords an excellent means of determining the growth of the city by comparison. The best judges, in fact, authorities almost indisputable, allot a population of three and one-half to each reference in the Directories of Western cities. Upon this basis we estimated the population in June, 1876, at 35,910, there being 10,260 references in the book. This year the references in the book number 13,050, an increase of 2,790. The population is, therefore, 45,675, an increase of 9,765 since June, 1876. Newspapers and pamphlets have been too moderate in estimating the number of inhabitants in this bustling, crowded city. This volume shows, beyond a doubt, an increase of fully twenty-five per cent. since the date of our last issue, one year ago; and after a careful and exhaustive comparison to facts, we have no hesitancy in claiming that our figures are conservative and within the bounds of actual fact. An official census would hardly vary them one thousand. H. O. Vandall is the publisher and D. M. Bishop & Co., the compilers.

[illegible] DAMAGED [illegible]

RECREANT REVERLY.

What Tom Hogan Has to Say About Him—John's Capture the Topic of Conversation at West Oakland—The Prisoner Interviewed by a "Tribune" Reporter.

The TRIBUNE's account of the capture by Sheriff Morse, in Nevada, of John C. Reverly, formerly a resident of West Oakland fell upon the citizens of the Point last evening rather unexpectedly. Several intimate friends of the accused professed to have been aware of his whereabouts while he was a wanderer, and were greatly surprised upon learning of his arrest. A TRIBUNE reporter called on Tom Hogan yesterday afternoon at his residence at West Oakland, and was the first to inform that individual of Reverly's arrest. Hogan is a square-built Milesian, about five feet in height and was formerly employed at the Contra Costa Laundry establishment in this city. It was while he and his wife were working there that they laid by a sum of money which they fondly hoped would be a means of support in their old age. A portion of this money Hogan had

INVESTED IN STOCKS,

"On a margin." He held sixteen shares of Ophir and ten shares of Chollar, and had nineteen hundred dollars invested. The parties who filled out the order upon his brokers ordering them to sell the stocks also presented another order purporting to come from Hogan which was to the effect that they (the brokers) should pay to the bearer the sum of $1,500. The money was so paid, and a letter written to Hogan informing him of the transaction. The letter lay in the West Oakland Postoffice seven days before Hogan got it, and it had already been opened. He explained this to our reporter yesterday, and at the same time began arranging his affairs preparatory to paying a visit to his friend Reverly, at the Jail. He expressed a hope that Reverly would get his just deserts. Our reporter, in conversation with various persons who were acquainted with Reverly before his sudden disappearance from the "Point," was informed that Reverly was a sort of

"CONFIDENTIAL FRIEND"

For several persons and business firms at West Oakland. These persons and firms found themselves short in their cash accounts but never laid their losses upon Reverly, who was a seeming favorite among them. Reverly always was a wire-puller, and managed to carry a solid delegation from the "Point" precinct into every County Convention he ever attended. It is stated at the Point, on good authority, that whatever "campaign funds" were floating about came through Reverly's hands. His transactions in real estate seem to have been limited, and resulted in no particular profit to himself or any one else. In conversation with Sheriff Morse, Reverly denied having forged the order from Hogan whereby that individual lost $1,500.

REVERLY INTERVIEWED.

This afternoon a reporter of the TRIBUNE called at the jail with a permit from the Sheriff to see John Reverly. The jailor conducted the reporter to a cell, on the second floor of the jail, wherein the accused was confined. Explaining his business the reporter asked Mr. Reverly if he had any statement to make in regard to the charge of forgery against him. Reverly replied that he did not know of anything. He appeared rather nervous, and stroked his face incessantly as if trying to solve some deep problem. His face was smooth shaven, and he wore a brown mustache cut short; he was dressed in dark pants, and blue woolen overshirt.

HIS POLITICAL ENEMIES.

"You deny the charge of forgery?" remarked the reporter.

"Its as false as the second sun!" replied Reverly; and continued: "This whole thing has been sprung on me by my political enemies. I came to Oakland before I was of age, and was always an ardent politician; there are parties at the "Point" who have offered large sums to get me out of the way; I always controlled the delegation from the "Point" precinct, although it was sometimes composed of very influential and independent men, but they did as I said just to help me. I headed the delegation in the County Convention which sent A. G. Gurnett to the Assembly; and last election I ran against John W. Pearson for the same office, but Pearson "bulldozed" the Judges of Election at the "Point" and they "counted me out." Pearson expended $6,000, to carry the "Point" precinct and had everything his own way. The Council appointed Dr. Bolton Judge of Election, but Pearson managed to get his own men on the Board and they left me out; I had an undoubted majority and would have been all right if the Doctor had been allowed to count the votes; my enemies want to

PUT ME OUT OF THE WAY,

And I have known of conspiracies being formed to that effect; a man told me one day that he could get twenty witnesses for $2 50 apiece, who would "fix me." If such a thing can be done my political enemies will undoubtedly press me to the wall, and although I'm entirely innocent may possibly convicted me of crimes I never committed."

"How about the Hogan mining stock?" asked the reporter.

"I am innocent of the charge of forgery and every other charge they may bring against me!"

REVERLY'S SURMISES.

Reverly stated that he had not engaged a lawyer; that he was entirely without means; and he should leave it to his friends and time to vindicate his charactr. He knew of no way he could possibly be convicted except by suborned witnesses. He thought he had friends yet at the "Point." He did not care to publish any statement and knew of nothing he wished suppressed; did not exactly know what the charge against him was.

Bidding Reverly good day the reporter took his leave. Reverly politely invited him to call again and stated he would be glad to see members of the press at any time and frequently.

A "POINTER'S" OPINION.

Meeting a resident of the Point who was formerly well acquainted with Reverly, our reporter asked him if he had seen Reverly yet.

"No, I have not," replied the Pointer.

"What do you think of his case?"

"Well, I think now as I always did—that Reverly is about 'half-crooked.'"

"What do people think about his case at the Point?"

"They think he had ought to be just where he is," said the Point man as he jumped aboard the down train.

Classical and English School.

The second year of the Classical and English School closed yesterday. The school has been under the management of Prof. Degen this last year and the results have been gratifying. The school is located at 1,420 San Pablo avenue. At the examinations this week the pupils evinced the fact that they had been well grounded in the principles of the studies which they had pursued. The first prize for scholarship, in the higher forms, was awarded to Edwin de Forest Drake, that in the lower forms to Gilbert Tompkins. The prize for the best English essay was given to Ledyard E. Winchell. The prizes were presented by Isaac Wright, Esq., in a neat address. Several of the pupils will enter the University next term. Prof. Degen expressed himself well pleased with the results of the year's work, advised the pupils to put away their books and enjoy themselves for two months, and announced that next year's work would begin in the new rooms between Broadway and Telegraph avenue.

KILLED BY THE CARS.

A Promising Oakland Youth Crushed to Death by a Freight Train.

About 6:30 last evening, James Sheehan (son of Patrick R. Sheehan, the well known painter whose shop and residence are at 461 Tenth street), young Scribner, Bailey, Tony Daly and another youth, jumped an eastward bound freight train at the foot of Broadway, to go to Stockton to attend the firemen's picnic which takes place in that city to-day. The evening being a delightful one, the young men preferred the top of the train to the caboose car, and proceeded that way until a short distance beyond Niles, standing and sitting on the brakes or ends of the cars alternately as they felt inclined. Young Sheehan was walking on top of the cars when the train approached the covered bridge across Alameda creek beyond Niles, when he sat down on the end of a box car, with his feet hanging between the one occupied and the next in front. After the bridge was passed he got up and started to walk forward on top of the train, when he made a mis-step in the dark and

FELL BETWEEN THE CARS,

When the whole rear portion of the train passed across his breast, killing him instantly. The accident occurred about 10:45 in the evening, the night being very dark, but the fall was noticed by his companions and the train was stopped. The companions of the deceased boy hastened to Niles and ordered a telegram sent to the father in this city, but Mr. Sheehan did not receive it. Young Scribner returned at an early hour this morning, and from him a TRIBUNE reporter gathered the foregoing particulars. Scribner did not look upon the body of deceased, owing to the aversion to viewing such a ghastly sight, but states that his companions informed him that the wheels of the cars passed across Sheehan's breast. The bereaved father was at church this morning when the sad intelligence reached him, shortly after the overland train went out, and, taking a party of friends with him, started to the scene of the accident to bring the body of his dead son to Oakland for interment. The deceased

JAMES SHEEHAN,

Was sixteen years and six months of age, and was an exceedingly bright boy, intellectually, having been looked upon in his boyhood as a youthful prodigy. His early education was looked after by the Christian Brothers of St. Joseph's Academy in this city, subsequently he went to the parent institution, St. Mary's College of San Francisco, where he soon out-stripped all competitors in the race for knowledge. His early and tragic death will cast a gloom over his once happy home, and cause a sigh of regret from all who knew him or his worthy parents.

Attempted Suicide.

A San Francisco lady named Margaret Jordan attempted suicide several times yesterday, by attempting to throw herself from the local train hence from Broadway at 10:50. She threw herself from the train once on Long Wharf, by which one of her hands was badly lacerated and filled with splinters. The gate keepers, noticing her mental derangement, detained her at the end of the wharf until Officer Shorey reached there, when he returned with her to the city prison. She made two or three attempts upon her life while returning, and kept constantly hugging the bashful detective, much to the amusement of other passengers who were not aware of the woman's mental condition. The woman is an American, about 28 years of age, and had with her a purse, a bank book for $150, and a valise.

MILLS' SEMINARY.

Concert Given by the Pupils Last Evening—A Brilliant Assemblage—Remarkable Talent and Proficiency Displayed by Vocalists and Musicians.

At an early hour last evening the thoroughfare leading to Mills' Seminary was thronged with carriages conveying to that institution the friends and relatives of the pupils and instructors. The occasion was the annual concert which is given every year by the pupils. The wide spread popularity of this institution of learning, and its high reputation among the people of the Pacific Coast, has drawn within its portals as scholars, many of the most brilliant young ladies in California. They come from all portions of the State, and are drawn from the most influential families, and those families which deem culture and refinement far more than they do wealth and position without these attributes. As an evidence of this statement the assemblage of guests at the concert last evening was composed of the very elite of Oakland and vicinity, and of San Francisco, with an occasional visitor from more distant points.

THE EXERCISES

Took place in the south parlors of the main Seminary building. As the guests began to arrive they were shown into these rooms by attentive young ladies appropriately dressed for the duties. In the parlors Mr. and Mrs. Mills were ready to receive their friends and the friends of their pupils. In the middle parlor an elegant piano was placed, and a stage had been arranged across the room whereon the vocalists took position when filling their parts. The rooms were brilliantly lighted and by half-past seven o'clock were completely filled. Still many people came after that hour and at 9 o'clock every chair was occupied. There were probably nearly four hundred guests present, and the assemblage was very striking in its appearance. The scholars occupied the east parlor, and sat facing the center of the middle parlor, the folding doors being thrown wide open between the three rooms, giving them the appearance of one long hall.

PART FIRST

Commenced with a chorus very acceptably rendered; a piano duet, "Marche," by Laura A. Goodrich and Caroline B. Flint, followed and received well-merited applause. Miss Lulu K. Hogan gave "The Sailor Boy's Farewell," vocal solo, in a charming voice; Miss Charlotte S. Zeile performed Mozart's "Menuet," on the piano and showed that good care had been rendered by her musical instructor; the vocal duet "Mira o Norma," by Bellini, was charmingly rendered by Miss Grace E. Plaisted and Lois A. Singletary; the former lady has a soprano voice of great power and flexibility and Miss Singletary rejoices in a superb contralto; a long and continued encore rewarded their effort. Miss Rhoda E. Fredericks followed with a piano solo "Bergeronette," by Lysberg; Miss Jeanette Hinkle sang with credit to herself the "Page's song, by Arditi; and Miss Mabel S. Beach gave on the piano, Chopin's "Valse," in E flat. A piano duo, "Marche Triomphale," from Satter, by Misses Lilly Collins and Emma O. Augustine, ended the first part of the entertainment.

PART SECOND

Began with a chorus, followed by a piano duet by Rhoda E. Fredericks and Nora McNeil. Miss Grace E. Plaisted next sang Bellini's magnificent "Casta Diva;" long continued applause greeted the young lady's excellent rendition of this superb solo. A piano duet, "Two pictures from the Orient," by Schumann was given by Misses Caroline L. Pierce and Fanny Morrison; a double quartette followed, with a part song by Abt. Miss Emma O. Augustine very acceptably rendered on the piano a "duetto," from Mendelssohn; this young lady evinced rare talents as a musician and won hearty applause; another gem of the entertainment was a vocal anthem, "O Sing to God," by Jacll, sung with chorus, Misses Plaisted and Singletary assuming the solo parts. Louisa A. Belden followed with a piano solo, "I Lombardi," and Miss Lois A. Singletary gained rapturous applause for a rendition of Donizetti's "Cavatina Semiramide." A piano solo by Miss Lilly Collins and a chorus ended the evening's entertainment at 9:15 o'clock. Taken as an entirety the performance by the scholars merited the plaudits which were liberally bestowed. After the entertainment came to a close there were the usual congratulations offered by friends of the Seminary to Mr. and Mrs. Mills, for the high state of proficiency to which they have brought the school.

TO-DAY'S PROGRAMME

Has already been given in the columns of the TRIBUNE. The graduating exercises will take place, and will be followed by the presentation of diplomas to members of the graduating class. An address will be delivered by Rev. I. Dwinelle this afternoon at the Seminary.

MINDS DISEASED.

Two Men Committed to the Insane Asylum To-day.

In the absence of County Judge Nye, Judge McKee to-day held an examination into the charges of insanity against Thomas Maher and William M. Luke, and committed them both to the Napa Asylum, and they will be taken up this afternoon by Sheriff Morse. Maher is about thirty years of age, but as he is a stranger in Oakland and is extremely taciturn, nothing is known of his nativity, state in life or occupation. He is the same man mentioned in the TRIBUNE a few days since as refusing to answer any questions whatever save to give his name. It has been ascertained, however, that he has been in an insane asylum before. The nature of his malady is melancholia, but of its history or cause nothing is known. He has no known halucination, and is harmless, having no incendiary, homicidal or suicidal tendencies.

WILLIAM M. LUKE,

The second man examined and committed to-day, is a German by birth, 37 years of age, unmarried, and has been in California twenty years. He has been a lumberman. He is afflicted with acute mania, is very wild and constantly excited, frequently shaking violently from nervousness, and the disease is increasing and probably incurable. He has no incendiary, homicidal or suicidal tendencies, but resists interference with his disposition to tear off and destroy his clothing, and being a large and powerful man, has to be kept in a straight-jacket. His mind runs on money and women, and recently he robbed a man of money and then threw the money away. He has been a heavy drinker.

This Evening's Dispatches.

Panic in a Catholic Church.

Panic in a Church.

NEW YORK, May 31st.—A panic took place in the Roman Catholic Church of Stanton county, Pennsylvania, this morning. A large congregation was gathered to witness the administration of the Holy Communion to a number of Sunday-school children. These latter all wore gossamer veils, one of which took fire from a candle. The cry of fire was raised and the greater part of the congregation rushed for the doors, but the efforts of priests and ushers, who kept the doors closed, prevented a great calamity. The fire having been extinguished, the congregation were reassured and the services proceeded without further interruption. Some parties received severe bruises during the stampede.

Story of Fresh Indian Troubles.

CHICAGO, May 31st.—The dispatch received this morning at General Sheridan's headquarters from Lieutenant Clark, dated Red Cloud Agency, May 29th, states that after a careful investigation, he considers the part of Cheyenne's story relative to Sitting Bull absolutely false, that chief being north of the Yellowstone, and probably north of the Missouri. The rest of Cheyenne's report appears to be founded on fact, though there is no certainty about it. Probably Lame Deer's village was captured, and the version of the affair given correct.

Hydrophobia.

HARTFORD, May 31st.—Monsieur Va Alvergnat, an instructor of French in a Hartford school who was bitten by a dog April 30th, died this morning of hydrophobia.

Sale of Gold.

NEW YORK, May 31st.—One million dollars of Government gold was awarded to-day at 106.028.

Important Advantages Gained by the Russians.

The Russians Obtain an Important Position before Batoum.

ST. PETERSBURG, May 31st.—An official dispatch from the Army of Caucasus, May 29th says: General O'Klobshio, commanding the operations against Batoum, ordered his advance guard to the left bank of the heights, on the left of the Turkish line. The enterprise was accomplished. Meantime detachments ascended Kintvisch and after great difficulty established a position about four miles from Katzuban, thus cutting off communication between Batoum and the population of the Kabetile district. The Russian loss in both enterprises was four killed and thirty wounded.

FRANCE.

Greece and the War.

PARIS, May 31st.—Delegates from Greek provinces of Turkey, held a meeting at Anthens last night in favor of war. The Committee on National Defense have been called upon to distribute arms in those provinces.

VIENNA, May 31st.—The Tablatt states that Murkhtar Pasha has been dismissed from command, and will be courtmartialed for representing that he had equipped an army of 66,000 men, whereas he had only 50,000 at his disposal.

A News Bucharest dispatch has the following: It is understood a small detached column, under selected officers, and having widely outlying objective points, will form part of the Russian scheme of operations after crossing the Danube. Some Bashi-Bazouks crossed the Danube between Kalavack and Jalerintza. They captured fourteen militia men and cut off the calves of their legs.

High Water on the Danube—Russian Operations—Outrages by Basha-Bozouks.

LONDON, May 31st.—A special from Ploisti says the Danube is so high owing to the melting of snow in the mountains near its source that an inundation is feared near Olteniza, which would oblige the Russians to remove their batteries there.

The Egyptian Contingent.

LONDON, May 31st.—The News' Alexandria dispatch says: The Egyptian transport steamers have not yet started with the Egyptian contingent troops for Turkey. The strike of English engineers, which at first delayed their departure, has been settled.

Ardahan Recaptured by the Turks.

LONDON, May 31st.—The Turkish Foreign Minister has telegraphed the Porte's representatives abroad as follows: Ardahan, which was recently occupied by the Russians, has been recaptured by the Ottoman troops.

The man-of-war "Petropaulovski," carrying 29 half-ton guns, is waiting for them in the Mediterranean.

A special from Paris of the Times says: Turkish ironclads are expected at Alexandria on the 4th of June, to escort Egyptian transports.

It is denied that any meeting between the Emperor of Austria and the Czar has been projected.

BUCHAREST, May 31st.—Sixty Russian siege guns are expected at Kalafat to strengthen the batteries there.

The Roumanian ministry is in trouble over the paper currency project, being unable to get a quorum for the past two days, and have therefore consented to adjourn the debate. The foreign minister will ask for a credit of 100,000 to give a fitting reception to the Czar on his visit to Bucharest.

Arrival in London.

LONDON, May 31st.—General Grant and party will arrive at the Midland Railway station about 5 o'clock this afternoon. They will be met by United States Minister Pierpont and other Americans.

Failures Among London Stock Operators.

LONDON, May 31st.—On the Stock Exchange there have been eight failures of bear speculators announced during the pending settlement.

Mysterious Fire.

At 4:15 this morning an alarm of fire was turned in from box 5, corner of Seventh and Washington streets, and a few moments afterward an alarm was turned in from box 9, corner of First and Washington streets, but both alarms were turned in for the same incipient conflagration, which was in the second story of a small house owned by Sun Winn and occupied by Charles Nelson and wife, and situated on the southwest corner of Third and Filbert streets. The fire was extinguished by means of a garden hose, without further damage than the destruction of a small bed. The doors of the building were locked, and Nelson and his wife were sleeping up stairs near where the fire caught. The bottom of a coal oil lamp was found near the burnt bed.

THE MACKIE Hydraulic Sewer Trap.

THE UNDERSIGNED HAS JUST RETURNED from Washington with full and complete patents for his new Hydraulic Sewer Traps.

These traps are constructed on strictly scientific principles and are a perfect guard against the passage of sewer gases into the house. They are provided with a disinfecting chamber, which being filled once in three weeks throws down a disinfectant every time the water flows through the trap, keeping the pipes always sweet and clean. The gases most fatal to human life are those which, passing through the Syphon trap when filled with water, flow into our rooms almost if not quite inodorous, and it is especially to guard against the passage of the most dangerous refined gases that this trap is designed.

THE MACKIE HYDRAULIC SEWER TRAP

Has been examined by the most eminent Scientific men in this State, who have noted its workings in metal and glass, and also by our highest authorities on sewerage in the Eastern States, and in addition to their unanimous approval, they have expressed their opinion that it will be the means of saving hundreds of thousands of human lives, and for that purpose is the most important invention of the present century.

We are Prepared to Furnish

These traps with fair discount to the trade, or will sell State or Territory rights. We guarantee their perfect working if properly used. The public are invited to visit our factory, corner of Valley and Locust (23) streets, Oakland, and watch their working in metal and glass.

REDUCTION IN GAS

Important to Landlords and Gas Consumers.

SAFETY AND ECONOMY.

Office Oakland Gas Light Co.,
September 16, 1876.

IN CONTINUANCE OF THE POLICY FOLlowed by this Company since its formation, and to lower its rates as warranted, the Oakland Gas Light Company hereby give notice that from and after the 1st day of October next the price of gas will be reduced to

$4 PER THOUSAND CUBIC FEET.

Considering the value of coal and labor, the limited use of gas and the distance between the points of consumption, Oakland is one of the most cheaply lighted cities in the Union.

Some of the advantages of cheap gas are:

1st. A daily saving in the cost of one of the necessaries of life.

2d. A decrease in the number of fires caused by the use of the dangerous distillates of Petroleum.

3d. A saving of human life by substituting stationary lights for the brittle of lamps.

It is hoped that this further reduction will be favorably accepted by the public, and that the Company will receive many accessions to the number of its consumers.

V. L. EASTLAND,
Superintendent Oakland Gas Light Co.

Property Owners Attention!
CAUTION.
ARTIFICIAL STONE PAVEMENT,
Schillinger's Patent.

THE UNDERSIGNED IS THE SOLE AND exclusive owner of Schillinger's Patent for the State of California. Said patent was granted to John J. Schillinger, July 19th, 1870, and was re-issued May 2d, 1871. The said Patent has been repeatedly sustained and damages and costs inflicted upon infringers of it by the Courts. The following are the claims of the Patent, viz:

1. A concrete pavement laid in detached blocks or sections substantially in the manner shown and described.

2. The arrangement of tar paper or its equivalent between adjoining blocks of concrete, substantially as and for the purposes set forth. All property owners having artificial stone pavements laid in detached blocks or sections are infringing one or both of the claims of said patent, as are also the parties laying such pavements; and every property holder is hereby notified that he will be prosecuted for every infringement of said patent in which he participates.

The great success of this pavement has induced many irresponsible persons to infringe the patent, and at the same time wrong their employers by contracting to lay the pavements and then doing inferior jobs.

The undersigned is prepared to lay sidewalks, garden walks, carriage drives, floors, etc.

All work guaranteed.
